

SURU INTERNATIONAL PVT. LTD.

UMBILICAL CATHETER

Product Name: Umbilical Catheter

Item Code: 3051

Features :

- Designed for intermittent or continual access to the umbilical artery or vein of the newly born or premature baby
- Can be used with venous or arterial routes for infusion, transfusion, administration of medication, blood sampling, pressure measurement etc
- Smooth round tip helps easy cannulation and silk finish surface further facilitates the passage of catheter in the vein / artery
- Tube with radio-opaque line throughout its length, marked at every cm from 5 to 25 cm from the open distal tip for accurate placement
- Open distal end without lateral eyes, eliminates the chance of clot forming in the blind spaces
- Soft, frosted and kink resistant PVC tubing
- Colour coded funnel end connector for easy identification of size
- Sterile product for single use

Available configuration :

- Length: 40 cm
- Sizes available : FG 4, 5, 6, 8
