

SURU INTERNATIONAL PVT. LTD.

BURETTE SET

Product Name: Burette Set (Measured Volume Fluid Administration Set) - SURUVOL®

Item Code: 2030

Features :

- Transparent, soft, cylindrical & calibrated measured volume chamber with sharp and bold marking scale
- Injection port for intermittent medication
- Chamber vent allows air to enter chamber through hydrophobic membrane to prevent solution contamination
- Precision flow regulator for accurate dispensing of solution and precise flow control
- Automatic shut off valve prevents air trapping in the fluid line once the measured volume chamber is empty, and it also indicates the level of liquid
- Bacteria retentive air inlet removes possibility of air borne contamination
- Air vented spike
- 15µm fluid filters reduces particulate matter
- Approximately 60 drops/ml
- Soft and kink resistant PVC tubing
- Sterile product for single use

Available Configuration :

- Tube length : 150, 180, 200 cm
- Burette sizes available : 100 ml, 110 ml, 150 ml

Option available :

- Hanger
- “Y” injection port (latex or latex free)
- Luer lock or luer slip, or rotating luer lock
- Automatic shut off valve (latex or latex free)
- With or without needle
- Air vent
- Needle free ‘Y’ site
- DEHP free tube
