SURU INTERNATIONAL PVT. LTD.

CHEST DRAINAGE BOTTLE

Product Name: SURUDRAIN® Chest Drainage Bottle (Double Chamber)

Item Code: 4012D.2000, 4012D.2500

Features :

- Chest drainage bottle is a single use disposable unit which is designed to forward the collected drainage into a collection chamber by the liquid static suction effects
- SURUDRAIN® makes it easy to observe and measure the collected drainage contents during surgery
- SURUDRAIN® facilitates safe retrograde technique
- SURUDRAIN® is provided with 100 cms long PVC tube hanging at a higher position as compared to the common collection chamber allowing the collection of drainage without giving rise to any inconvenience

- SURUDRAIN® is suitable for all cardiac and thoracic procedures
- Clear easy to read graduations marked on bottle to determine the amount of collection
- Clearly marked initial water level ensures the under water seal
- Writing facility on the side of scale helps in monitoring of drain volume
- Suction port is provided to fill water
- Kink resistant large bore tubing facilitates unrestricted flow
- Complete unit is sterile and wrapped twice to avoid any possible infection

Available configuration :

MODEL	CAPACITY
Single Chamber	500 mL, 1200 mL, 1600 mL, 2000 mL
Double Chamber	2000 mL, 2500 mL
