CHEST DRAINAGE BOTTLE

Product Name: SURUDRAIN® Chest Drainage Bottle (Single Chamber)

Item Code: 4012S

Features :

- Chest drainage bottle is a single use disposable unit which is designed to forward the collected drainage into a collection chamber by the liquid static suction effects
- **SURUDRAIN®** makes it easy to observe and measure the collected drainage contents during surgery
- **SURUDRAIN®** facilitates safe retrograde technique
- **SURUDRAIN®** is provided with 80 cms long PVC tube hanging at a higher position as compared to the common collection chamber allowing the collection of drainage without giving rise to any inconvenience
- **SURUDRAIN®** is suitable for pleural drainage in conjunction with chest drainage catheter in cardiac and thoracic procedures
- Clear easy to ready gradations marked on bottle to determine the amount of collection
- Clearly marked initial water level ensures the underwater seal
- Write on facility on the side of scale helps in monitoring of drain volume
- Suction port is provided to connect with suction unit
- Kink resistant large bore tubing facilitates unrestricted flow
- Complete unit is sterile and wrapped twice to avoid any possible infection
- Single chamber chest drainage bottle compact unit having capacity of 500 ml, 1200 ml, 1600 ml, 2000 mL
